THE ALLIED ARMIES HAVE ENTERED PEKING

Members of the Foreign Legations Are Safe. Obstinate Resistance Was Met and the Japanese Troops Suffered a Heavy Loss.

Washington Aug 17—The allied armies have captured and entered Peking in the face of obstinate resistance and the members of the foreign legations are safe.

Official confirmation of the fall of the Chinese capital came to the United States state department today in the shape of two cablegrams one from Admiral Remey and the other from Consul Fowler at Chi Fu The cablegram from Admiral Remey came to hand first early in the evening, followed very soon after by that from Consul Fowler

Remey's Dispatch

Admiral Remey's dispatch is as follows

Taku Aug 17—1 a m—Bureau Navigation Washington Just received telegram from Tien tsin dated

Peking was captured on August 15 by foreign forces Details follow

Fowler

Fowler Gives Details.

That from Consul Fowler giving important details of the occurrence at the time of the capture of the city was given out in the subjoined official statement

The acting secretary of state makes public the following plain telegram received this afternoon from the United States consul at Chi fu

Chi fu Aug 17 1900—(Received August 17 7 55 p m)—Secretary of State Washington Secretary Navy Remey admiral reports allies attacked Peking last 15th Obstinate resistance Legations entered capital 16th which fled Immediately last attack Long Imperial gate Japanese loss Chinese Fowler

The Halt at Tung Chow

Previous information received here showed that the allied armies took possession of Tung chow on the 12th inst From that city to Peking the distance is not very great A progressive forced march it is evident therefore that the armies halted for a time at Tung chow probably for the purpose of giving the men a rest and preparing for the attack upon the capital city In force after waiting until the rear of the advancing hosts should arrive at the front Possibly also the delay was the result of negotiations begun by the Chinese officials looking to the delivery of the ministers with a Chinese or other escort If negotiations were attempted they must have failed as the army continued on its march and attacked the capital three days after reaching Tung chow

The officials here were aware of the fact that the stronghold of the Boxers in the Chinese city had to be stormed before leaving any dispatches

Colonel Meade in issued the following letter from General Dorward the commander of the British forces

From the general officer commanding British forces in China—To the officer commanding the United States forces

Tien-tsin China July 1 1900—Sir I decide to express the high appreciation of the British troops for honor done them in serving alongside their comrades of the American army during the long and hard fighting of the 13th and the subsequent capture of Tientsin and of my own appreciation of the high honor accorded to me by having them under my command

The British troops formed part of the front line of the British attack and so had more than their share of [illegible] and willing spirit of the officers and men will always make their command a pleasant and when one adds to [illegible] bullets and [illegible] killing [illegible] positions which they displaced on the 13th inst the result is soldiers of the highest class

[illegible] all deserve [illegible] in the heavy losses sustained especially with the Ninth regiment in the loss of their gallant Colonel F H Liscum while at the head of his men and with the first regiment of marines in the loss of Captain Davis who met the death of a soldier at the very front of the fight

I blame myself for the mistake made in the taking up of their position by the Ninth not remembering that troops wholly fresh to the scene of action and hurried forward in the excitement are likely to lose their way Still the position they took up and gallantly stuck to all day undoubtedly prevented a large body of the enemy from turning the right of the attacking party and inflicting serious loss on the French and Japanese

Among many instances of personal bravery in the action I propose especially to bring to notice in dispatches the [illegible] United States marine corps in bringing a wounded man from the front under heavy and accurate fire Lieutenant Butler was wounded while so doing but I am glad to [illegible] adjutant First Lieutenant Henry Le Ford as Lieutenant Butler was suffering [illegible] to carry him out of the firing line This gallant feat be successfully accomplished but I regret to say was very dangerously wounded in so doing

The Ninth regiment was fighting somewhat outside my sphere of action so I am going to forward only one instance of personal gallantry in that region although circumstanced as they were fighting for about 12 hours almost alone and unsupported and never giving back a foot of ground until directed to retire under cover of the [illegible] such instances must have been very numerous The one I would refer to is the bringing back to me by the acting regimental adjutant Captain Lawton of the account of the position of the regiment across a wide and fireswept space and returning with reinforcements to [illegible] them to his regiment when he was severely wounded

The withdrawal of the regiment was a [illegible] military operation finely executed but on [illegible] Lieutenant Colonel Coolidge and the officers and men under his command

Met Strong Resistance

These facts evidently were communicated to General Chaffee and the other commanding officers of the allies Receiving these obstacles it appears that the allies decided to attack the city by the [illegible] gate There are four gates to the city on the east two leading to the Chinese city and two to the Tartar city Just which one of these was selected as the attacking point Consul Fowler's dispatch does not show

Contrary to the press reports of today Consul Fowler's dispatch shows that the attack on the city met with strong resistance The Japanese fought [illegible] with the advance according to an understanding if the officials have numbered 10 000 men so that the loss suffered by them was not one for [illegible] consequent is made on losses in the [illegible] of the other armies but it is presumed that it was in proportion to that of the Japanese

President Overjoyed.

The president was overjoyed on hearing the news of the safety of Minister Conger and his associates He has been hopeful all along that their rescue from the perilous position in which they have been for so long a time would be successfully accomplished Tonights news confirms that hope

As soon as he heard of the news Secretary Root came in from the country club and remained for some time with the president discussing the latest information which had come to hand Nothing has come directly to the war department from General Chaffee but the adjutant general's office is momentarily expecting advices

The officials were on hand during the evening and waited until late hoping before leaving for home without receiving any dispatches

Colonel Meade in issued the following letter from General Dorward the commander of the British forces

From the general officer commanding British forces in China—To the officer commanding the United States forces

Tien-tsin China July 1 1900—Sir I decide to express the high appreciation of the British troops for honor done them in serving alongside their comrades of the American army during the long and hard fighting of the 13th and the subsequent capture of Tientsin and of my own appreciation of the high honor accorded to me by having them under my command

The British troops formed part of the front line of the British attack and so had more than their share of [illegible] and willing spirit of the officers and men will always make their command a pleasant and when one adds to [illegible] bullets and [illegible] killing [illegible] positions which they displaced on the 13th inst the result is soldiers of the highest class

[illegible] all deserve [illegible] in the heavy losses sustained especially with the Ninth regiment in the loss of their gallant Colonel F H Liscum while at the head of his men and with the first regiment of marines in the loss of Captain Davis who met the death of a soldier at the very front of the fight

I blame myself for the mistake made in the taking up of their position by the Ninth not remembering that troops wholly fresh to the scene of action and hurried forward in the excitement are likely to lose their way Still the position they took up and gallantly stuck to all day undoubtedly prevented a large body of the enemy from turning the right of the attacking party and inflicting serious loss on the French and Japanese

Among many instances of personal bravery in the action I propose especially to bring to notice in dispatches the [illegible] United States marine corps in bringing a wounded man from the front under heavy and accurate fire Lieutenant Butler was wounded while so doing but I am glad to [illegible] adjutant First Lieutenant Henry Le Ford as Lieutenant Butler was suffering [illegible] to carry him out of the firing line This gallant feat be successfully accomplished but I regret to say was very dangerously wounded in so doing

The Ninth regiment was fighting somewhat outside my sphere of action so I am going to forward only one instance of personal gallantry in that region although circumstanced as they were fighting for about 12 hours almost alone and unsupported and never giving back a foot of ground until directed to retire under cover of the [illegible] such instances must have been very numerous The one I would refer to is the bringing back to me by the acting regimental adjutant Captain Lawton of the account of the position of the regiment across a wide and fireswept space and returning with reinforcements to [illegible] them to his regiment when he was severely wounded

The withdrawal of the regiment was a [illegible] military operation finely executed but on [illegible] Lieutenant Colonel Coolidge and the officers and men under his command

MISS KNOX'S CLAIMS

Denver Woman Asks Possession of $82 000 000 Worth of Chicago She Says is Hers

Chicago Aug 17 Miss Minnie J Knox of Denver Colo has filed claims in the office of Sheriff Magerstadt asking him to take possession of $82 000 000 worth of property which she asserts is rightfully hers

A bank is threatened with attachment for $6 000 000 while dry goods firms and department stores are in danger of having $40 000 000 each suddenly snatched away

There is no accompanying statement to show how or why the firms are in debt to her for the amount specified

Miss Knox on a former occasion claimed to be the owner of the Lake Front park and the leading dry goods store in this city

TO FOLLOW ROOSEVELT

C A Towne Will Attempt to Counteract the Efforts of the Republican Champion

Chicago Aug 17—According to information given out at Democratic headquarters in this city of the west Gov Roosevelt will have an oratorical fight on his trail in the person of Charles A Towne the Silver Republican

Within 10 days Mr Towne will open the campaign at Duluth where he will make an elaborate address devoted mostly to answering Gov Roosevelt Later Towne will tour Idaho Oregon Washington and other western states keeping close to Gov Roosevelt's path Mr Towne will make an occasional trip to the south, speaking at Atlanta Louisville Memphis Nashville and other important cities Throughout it will be Mr Towne's mission to pay special attention to the Republican vice presidential nominee and to answer arguments made by the latter during the campaign

FELL INTO THE BAY

Wreck on Lake Shore R R Near Sandusky Remarkable for Absence of Fatalities

Sandusky O Aug 17—Lake Shore train No west bound was wrecked at Bay bridge near Sandusky at 1 o'clock this morning The train left Cleveland at 10 p m and struck a broken rail [illegible] west of Sandusky The engine and two mail cars passed over the bridge safely [illegible] two mail and a combination car went over the bridge into Sandusky bay in twenty feet of water The rest of the train left the track but did not go over the bridge and beyond a severe shaking up and a bad scare no one was injured in these cars The three cars piled up in a mass in the water below imprisoning the mail clerks and the passengers in the combination baggage and passenger coach

Not a life was lost passengers and employees climbing through windows and [illegible] water with slight injuries The cars are 60 feet long and two of them stood partially on end in the 20 feet of water Wreck train was [illegible] sent out at once from Toledo and Sandusky Doctors were secured from Port Clinton and Sandusky They took care of the wounded [illegible] 5 o'clock in the morning

The conductor's report says every one is accounted for None of those injured will die Not a person is thought to have been seriously injured

The broken rail was on the westbound track near the east end of the Bay bridge The bridge was uninjured and traffic was delayed but slightly

Five trainmen were injured They are

Baggageman Wm Frawley Cleveland

Chief Clerk J C Beck Goshen

Al Spalding Adrian

B S Wise Chestertown

Fourteen passengers were in the combination car of whom two names unknown were cut by flying glass Their injuries were dressed before the surgeons arrived

At the time of the wreck the train was running 35 miles an hour Trainmen report the 14 imprisoned passengers in the combination coach The bridge on which the wreck occurred is half a mile long and but six feet above the water which is from 14 to 20 feet deep A large amount of mail is still in the water Most of the Lake Shore trains this morning were obliged to go [illegible] the broken rail has been fixed and traffic has been resumed on the Sandusky branch

DISASTROUS FIRE

Incendiaries Caused Heavy Loss in Small Town of Smithfield, Ill—No Fire Department.

Peoria Ill Aug 17—Smithfield a town of 1 500 inhabitants 43 miles west of here was visited last night by a very disastrous fire which threatened for a time to entirely destroy the place

As it was a dozen buildings were burned and the loss it is estimated [illegible] the exception of two stores all of the buildings and stock burned was covered fully by insurance

The fire was discovered about midnight in the rear end of Robertson's grocery store and spread rapidly both up and down Main street consuming the grocery where it started Dr Newberry's drug store the Odd Fellow hall Dr [illegible] Mulvey's general store Riggs dry goods store McLaughlin's harness shop Mosley's furniture shop Carvin's general store Carvin's residence the Central Union Telephone exchange the bank office and Republic hall

All of these were frame buildings and every one of them was totally destroyed There was no insurance held by either Mulvertson or Robertson

The village has no fire department but the citizens attached garden hose to the town pump and did what they could in this manner and with buckets to get water onto the fire Their efforts however were of no avail and the fire burned until it had consumed the entire business block

The fire was of incendiary origin the match having been applied by men who afterward tried to rob the homes of the villagers They were discovered in two or three houses but managed to make their escape before they could be captured They left town in a wagon driving rapidly away

RAN INTO A FREIGHT

Rock Island Engineer and Fireman Seriously Injured—Passengers Were Only Bruised

Kansas City Mo Aug 17 A special to the Star from Goodland Kan says Rock Island passenger No 6 from Denver and Colorado Springs for Kansas City crashed into a freight train [illegible] Bethune early today James Bock engineer and Chris Kimm fireman both of the passenger were seriously and perhaps fatally injured The passengers were rolled out into the aisles and bruised but none were seriously hurt The passenger engine went clean through the caboose but no one on the freight train was injured

NEWS ITEMS FROM DENVER

State Revenue Commission's Plan of Procedure.

THREE NEW SUB-COMMITTEES

Each Assigned an Important Phase of the General Question — States Dispute Payment of a Bill.

Denver Bureau,
Colorado Springs Gazette

Denver, August 17—The city of Denver has brought suit against the Colorado National bank for $1,000. The suit is brought to recover the amount of a forfeit filed by Cardiff and company when it was competing for contracts for building a storm sewer. The company gave a check for the amount when awarded the contract for building the sewer but failed to build as agreed. When the check was presented the cashier refused to cash it hence the suit.

Four new cases have been added from the quarantined portion during the past three days. Dr. W. C. Mitchell was the last person to lose his mother. A special detective has been put to work but none of the wheels have yet been recovered.

Revenue Commission.

The state revenue commission has at last adopted a plan of procedure. The three new sub-committees were named this morning and a number of good resolutions were adopted. The first committee will have in charge all past legislation and court findings bearing on the assessment question as it will recommend amendments that will increase and preserve from a property standpoint. The second has for its duty the suggestion of new objects and subjects for taxation and the manner of appraising and imposing taxes on same. The third committee will have in charge the devising of ways and means whereby the expenses of all the state institutions can be diminished. The last committee is the most important of all and is composed of J. A. Israel, B. F. Montgomery and W. S. Jackson. This committee will meet in Denver and will act on the suggestions of the three different committees at that time. A resolution was made that each member ex officio of each of the said committees pass resolution inviting correspondence from all citizens of the state giving their view of the best way to raise the amount of money necessary to run the state, was adopted.

Whitewater Bridge.

G. Herzogg of Milwaukee secured a contract for building the state bridge over the Gunnison river at Whitewater, Colo. His bid was $4,000.

Mrs. Catharine Burke of 1852 Curtis street was severely burned at 9 this morning. Her clothes caught fire while she was attempting to light a gasoline stove. The flames were extinguished but she was still unconscious from her injuries when found by her son three hours later. The police surgeon dressed her wounds.

Edward D. Allen, looming at 1647 California street, died at an early hour this morning, under peculiar circumstances. Just before his death he stated that he had been a heavy morphine user for some time but would not state who gave him the drug. Dr. Silver, the attending physician, says he died of [illegible].

Mr. Allen was one of the oldest mining men in the state. About three months ago he sold a mine for $14,000 cash and a number of his friends have been hoping that, with this start, he would make a fortune. Until it is said all his money is gone. The coroner will hold an inquest tomorrow.

Charles Halverson, a despondent invalid, tried to commit suicide at the county hospital this morning. He stabbed himself in the jugular vein and will die.

Governors Dispute a Bill.

About a year ago Governor Thomas, by request of Governor Wells of Utah, directed the sheriffs of Routt and Rio Blanco counties to jail that part of Colorado known as the Hole in the Wall for the purpose of capturing a gang of desperadoes who had been doing business in Utah. The sheriffs of the two counties proceeded with a posse of men and, as directed but failed to capture the robbers. They then sent Governor Wells a bill for their services. He sent the bill to Governor Thomas, who in turn returned it to the two sheriffs. This morning Governor Thomas again received the bill, thinks that as the men were invited in Utah that state should pay the costs. He has referred the matter to Attorney General Campbell as to his opinion which state should pay it. In the meantime the men who did the work are likely to wait another year for their pay.

The coroner's jury [illegible] this afternoon without reaching a verdict in the Slim murder case. They will meet again Monday morning. Slim has been identified as Tom Maybel, who was sentenced to Buena Vista three years ago. Ed Donnelly is still held charged with the murder.

Political Brevities.

The Democrats held a ratification meeting at East Turner hall last evening. A good crowd was present. Judge Keim, Senator [illegible], Attorney [illegible] and Colonel John G. Taylor were the principal speakers.

The Bryan Democratic League has opened headquarters in the seventeen precincts of the city. It now seems probable that this faction of the party will have a complete ticket in the field.

Notices of the results of November [illegible] were mailed to the different county clerks today. The notices are to be elected.

Saved Money and Life.

Harry Roberts, a butcher living at 1[illegible] West Fourth avenue was attacked by two masked robbers while on his way home from work last night. He grasped the two revolvers held by the men and [illegible] pointed in a safe direction and all the cartridges were discharged. The robbers failed to secure any booty.

A report is current in the streets today that the Taber property, consisting of sixteen lots at the corner of Seventeenth avenue and Broadway, have been sold to an eastern syndicate for $20,000. That will, it is said, erect a $1,000,000 block on the site this fall.

Edward Gandling, who was drowned in Sloan's lake yesterday, will be buried Saturday afternoon. The newsboys of the city will have charge of the remains.

Clara M. Nellon, Bagdil, supreme representative.

The installation was a most [illegible] affair and was the finest ever seen in the state. All the visiting members have said that the local team installed the [illegible].

BOULDER

Work Progressing on Reconstruction of the Flour Mill—Forest Fire Near Long's Peak.

Special to the Gazette.

Boulder, Aug. 17—Work is now in progress on the reconstruction of the McGaslin flour mill which was burned down some time ago.

The new company is known as the Boulder Farmers Mill and Elevator company and has a capitalized stock of $50,000.

Contracts for the machinery have been let to Nordyke and Marmon of Indianapolis, one of the largest milling firms in the United States.

The work of construction is being pushed to the utmost and it is believed the mill will be running full capacity by November 1.

An immense forest fire is reported in the vicinity of Long's peak. Sports men returning from the burned district say that fire has already passed over a large territory of fine timber land and is still raging.

For the past few days the smoke has been distinctly noticeable even in Boulder, especially in the afternoons.

ACCIDENT AT LAFAYETTE

Frank Reinheimer Killed in the Gladstone Mine.

Special to the Gazette.

Boulder, Aug. 17.—Corner Trezise of this city was called to Lafayette this [illegible] at which occurred [illegible] that place. While working in the Gladstone mine several men were hurled beneath a large mass of falling rock. Frank Reinheimer was instantly killed and several others received slight injuries.

Reinheimer was [illegible] years old, a Bohemian [illegible] man [illegible] years. He leaves a wife and two children.

Polin's Mid Summer Half Price Sale

You already know about this sale and its low prices but while the prices go lower the ads will bear repeating. It was just a clearance sale at first. Now, as it nears the end, prices are down to halt. We opened this exclusive Suit and Cloak House with the largest stock of such goods as Colorado Springs ever carried. Stock and assortment enough to show every desirable and popular style of the eastern fashion centers and to fit every conceivable size. Naturally we had much of it left at the close of the spring season. We expected to have. We were willing to sell half or more of this stock at cost and below during midsummer to do the entire year's business without profit that we might in our first year establish our reputation as a complete, modern, up to date exclusive suit and cloak house excelling any other west of Chicago. We have nearly accomplished what we set out to do—nearly disposed of this immense stock. What's left goes at half—some things at less, including

MEN WITH LARGE NOSES

Are Not Always Successful But a Great Number of Those Who Succeed Have This Organ Well Developed. Dr. Ellison is Successful in His Work Because He Enjoys an Extensive Practice Among That Class Who Suffer From Consumption, Asthma, Catarrh, Hay Fever and Chronic Diseases of Men, Women and Children. If You Suffer See Him Before You Secure Treatment.

When a leg or an arm is crushed or lacerated the trouble is apparent to any physician in general practice and he will know just what to do in order to bring about the best results; but it requires a physician who makes it his exclusive business to successfully treat chronic diseases. Dr. Ellison treats consumption, asthma, catarrh, hay fever, and chronic diseases of men, women and children, limiting his practice to this class of work exclusively. He does not go any outside practice. All the books and journals he reads treat of chronic diseases. All of the remedies he keeps in his drug store are for the cure of chronic diseases. They would be worthless if given in acute cases or general practice. Don't you see that Dr. Ellison's treatment will be best for you if you suffer from any chronic disease? And do you not see that there is a reason why you can reasonably expect a cure from the doctor when ordinary treatment will fail. You can see him without expense. His office is at 24 North Tejon street (over Craigue's grocery store), where you will find him mornings from 9 to 12; afternoons from 2 to 5; evenings from 7 to 8 o'clock.

SPECIAL NOTICE Dr. Ellison gives free consultation and examination every day except Sundays, from 11 to 12 a. m. and from 2 to 5 p. m.

---

smeared form which, when it became erect, was seen to be that of a manly-looking boy or a boyish-looking man. He said nothing, but stood and watched the car as it moved off down Tejon street. When it had passed he picked up his cap from between the rails and as he was [illegible] of the fact from an [illegible] was recognized by someone who knew him as Arlan Cahill, the young electrician and emergency man of the Rapid Transit company who answers hurry-up calls and starts traffic when it gets blocked.

Sometimes he has to crawl in among the wheels and the cog wheels to locate the disabled member. Once in a while he has to ride on the top of a little dinkey repair kit on wheels that the trolley company sends around and he has been known to [illegible] but he's always on deck by the time he is needed again.

As he picketed his wheel and rode away from the scene of last night's difficulty someone asked him what was the matter. But he didn't hear the question and another replied that the brakes had refused to release when they should have done so.

PUT TO THE TEST.

Colorado Springs People Appreciate a Good Thing.

Everybody has their hour of trouble. But people having any itchiness of the skin

Nothing so annoying. Nothing so irritating.

Scratch it, it becomes worse.

Leave it alone and you can hardly stand the misery.

Itchiness comes in many forms.

Eczema and horrid itching piles.

Relief and cure are here at last. Colorado Springs has put it to the test.

Doan's Ointment cures every form of itchiness of the skin.

People at home are learning that this is so.

Here is a proof in a citizen's statement.

Mr. E. H. Downer of 519 South Cascade avenue, says: "Itching hemorrhoids annoyed me for 20 years and for at least 10 years were chronic. I was never free from misery and do what I liked I was unable to obtain relief. Now, when Doan's Ointment procured at the Smith-Wilson Drug Co.'s, store 31 ejon street so greatly benefitted an old and stubborn case of hemorrhoids like mine I congratulate [illegible] the earlier stages the treatment will prove invincible. I never received as much benefit from any remedy I ever used."

For sale by all dealers. Price 50 cents Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

August 28th Excursion.

On this date the Colorado Midland will sell tickets to all points on the line at one fare for the round trip. Tickets will carry a long limit and stopovers will be permitted.

SOUTHERN AND SANTA FE SIGN FOR ANOTHER YEAR

All the clouds that hovered around the joint-track agreement between the Colorado and Southern and Santa Fe roads have been wiped away and practically what was the old verbal agreement will govern the operation of the two lines between Pueblo and Denver the coming year, only it will be in writing this time and binding on both parties.

A special train over the old Colorado and Southern line via Elizabeth yesterday afternoon conveyed the officials of the two companies to Pueblo where the Santa Fe people will take their departure for the east. It is said the old agreement will be in force with a few minor changes, but these minor changes are thought to be of enough importance for the agreement to be drawn in black and white for the coming year. The Santa Fe is preparing for heavy traffic between Pueblo and Denver by the establishment of a block system and other inducements. Officials of the two lines would not discuss any information yesterday, saying the agreement had not been formally signed, but admitted the plan was agreed upon and that it would not be necessary for another meeting before the papers were signed.

Just why they came around over the old route is a feature that excited much curiosity among shippers and railroad men. The popular theory is that the Santa Fe calculates on using this route between here and Denver for freight business when traffic is unusually heavy on the main line. The officials, however, stated that it was only a desire on the part of the Santa Fe [illegible] part of the Southern's system that was objectionable, the party were:

Of the Colorado and Southern—President Trumbull, Vice President Winchell, General Superintendent [illegible], General Auditor Parker and Chief Engineer H. W. Cowan; Santa Fe officials—President E. P. Ripley, Third Vice President J. M. Barr, General Auditor H. C. Whitehead and General Manager H. B. Mudge, the latter party intending to go to Chicago direct from Pueblo.

JUST LIKE CRIPPLE IN YE OLDEN TIME.

Messrs. C. H. White and D. P. Sill have just returned from an inspection of their bonanza copper mine at Cooper, N. M. [illegible] in charge of Capt. H. C. McCreery, formerly of Colorado Springs.

"We have ore shoot development to the depth of 225 feet," said Mr. White yesterday, "and it is 160 feet long with good ore at each extreme. There are now in sight more than 10,000 tons of high grade ore. The balance of the claim has been prospected sufficiently to show large bodies of milling ore. Mr. McCreery has a great many friends in this city and they will be glad to know that he is connected with such a good property.

"We have secured another valuable property on the same lead showing rich ore at surface running over $200 per ton in copper gold and silver.

"One of the interesting things in connection with our trip," said Mr. White, "was our holdup at Graham, N. M., of which accounts were wired all over the country. We were only two miles from there at the time of the robbery.

"The store of the Helen Mining company was held up and robbed by three highwaymen, believed to be members of the gang of desperadoes infesting the western portion of Socorro county. After securing $150 in cash and some jewelry and guns, amounting to $100 more, they started in the direction of Alma, and very shortly afterward held up some men they met on the road. They were Blakeley Graham of Denver, Charles Woodruff of Graham and Mr. Field of Magollon, and at the point of six shooters gave up everything of value they had on their persons.

"Another member of the party held up was a physician doing business in that section of the country.

"A telephone message was sent at once from the Graham store to Deputy Sheriff Foster at Magollon, who immediately started in pursuit with a posse of armed men. They came upon them Thursday night about 10 o'clock, just on the outskirts of Alma. The robbers were coming to town, but when they heard the posse behind them hid behind some [illegible] and awaited the ambushing the officers. When the latter came in sight they opened on them to which they at once replied and a pitchy battle lasting for nearly an hour ensued. Finally one of the robbers fell and a rush was made by the officers for his body, upon which the two remaining robbers ceased firing and made for the brush. The wounded man was captured without further resistance. His wounds are such that he cannot talk, his jaw having been shot off. He also has an ugly wound in his neck. He is a young man about 25 years of age, sandy moustache and rather undersized.

"The interesting part of it is that the same doctor he held up had to dress his wounds a few hours later. The doctor had to operate and dress them with a butcher knife, but [illegible] is doing all he can to bring the robber through. He is receiving every care and attention, but is not expected to survive. His companions, who made their escape, are still being closely pursued and it is thought will be ultimately captured."

Save this and Wait.

Until Saturday, August 18th, at 9 a. m.

On account of the largest Clothing House located at Pueblo having been forced from their building, their entire stock consisting of over $40,000 worth of fine Tailor-made Clothing, Shoes, Hats and Furnishing Goods, has been removed to Colorado Springs, in the large building, No. 21 North Tejon street, opposite the opera house, and will be sold out in 7 days at retail to satisfy all the indebtedness. On account of this terrible misfortune when all our indebtedness is due, our entire fine stock must be sacrificed at 33 per cent, less than the actual cost to manufacture to save our good name.

The Building at 21 North Tejon street opposite the opera house is now closed, and this great closing-out, money-raising sale will positively begin Saturday morning, at 9 a. m., Aug. 18th; and positively closes in 7 days. No postponement. Below we quote a few prices to show what extraordinary bargains will be offered. Bring the children, there will be music all day.

A Fine Suit of Men's Clothes, All to Match, $2.98.

This suit is positively worth $12.50 or your money refunded any time during the [illegible] Scotch Plaids, $4.98, worth $16.50 or your money refunded at any time if you are not satisfied.

Men's Extra Fine Dress Suits, in all the latest styles and shades, heavy silk and satin lined, equal to the finest $40.00 tailor made to order suit, for $12.48. Don't fail to ask to see this suit.

Men's Fine Dress Pants, 98c; worth $3.50 or your money returned.

Men's Fine Trousers for Sunday wear in worsteds and fancy stripes at $2.39; positively worth $5.00, $6.00 and $7.00, or money returned.

Over 500 Overcoats and Ulsters of the finest makes and qualities for $2.98, positively worth $15.00.

About 250 Overcoats, in Covert Cloth, Herringbone and Valure finish cloth, all silk lined, $7.89, positively worth $22.00 to $35.00 or money returned at any time during sale.

Boys' Suits and Overcoats 98c, worth $4.50.

1,000 pairs of Boys' Knee Pants 12c, worth $1.00.

Men's best quality reinforced unlaundered Shirts 29c, worth $1.00.

Come and pick 'em at your own price, for everything must be sold in 7 days. Remember we have been forced from our building.

Good Heavy Work Shirts 19c, and Fine Dress Shirts 38c, worth $1.00.

Men's Hats, Stetson's shapes, also a few Dunlaps, 98c, worth $3.00 and $4.00.

A few hundred boys' Hats and Caps, 19c, worth $1.00.

Men's Fine Silk Embroidered Suspenders 6c, worth 75c.

Good Heavy Socks 3c, worth 35c and 50c.

Over 5,000 Neckties in all shades 19c, worth from 50c to $1.00.

Men's fine Summer Underwear in Lisle and Light Lamb's Wool, bought to sell from $1.00 to $5.00 per suit, will be sold at this sale at 19c per garment.

Men's Handkerchiefs 3c, worth 35c.

Odd Coats, Odd Vests and Mackintoshes at your own price.

SHOES

Men's Hand Made Russet Calf and Cordovan, worth from $3 to $4, for 98c.

Men's finest Box and Willow Calf Vici Kid, worth $5, for $1.98.

Seiz Royal Blue (stamped on every pair) said the world over for $4 and $5—Sale price $1.98.

And hundreds of other styles to choose from.

One thousand pairs of Overalls 35c, worth $1.00.

Men's and Boys' All Wool Sweaters at your own price, and 3,000 other articles too numerous to mention, among them many for the ladies.

Do not confound this sale with so-called closing out sales, etc. This is a legitimate sale. Pueblo's largest Clothing House has been removed to Colorado Springs in the large building at No. 21 North Tejon street, opp. the opera house, and will begin Saturday, Aug. 18th at 9 a. m. and positively closes in 7 days. Don't miss it if you value money. It will pay you to come 100 miles. Railroad fare paid to all purchasers of $25.00 and over.

Clark Party has Sailed on Kaiser Friedrick

A special cablegram to the Gazette from Cherbourg, sent by Mr. E. R. Clark, yesterday, states that the High School Travel club sailed yesterday from that port on the Kaiser Friedrick and that all members of the party are well.

This will be welcome news to the friends of the members of the club. The travelers have been away since early in June and have been enjoying one of the most delightful tours that they could plan, and they spent more than a year in planning it.

Letters from different members of the party from time to time, some of which have been published in the Gazette, have kept the interest of the home friends keen in the trip that was being taken by this part of twenty, and the homecoming which will take place in the course of ten days or two weeks will be awaited eagerly by a good many people.

The Men Wondered But the Boy Knew

Shortly after 7 o'clock last evening there was considerable excitement at the corner of Pike's Peak and Tejon. A big crowd gathered about a south-bound trolley car and it was whispered through the throng that a man had been run over and was beneath the car.

The crowd was waiting for the coroner. It was a car with a trailer and was bound for the Canons. The gentleman passengers got off the car and joined the crowd that was looking under the trucks. The lady passengers remained in their seats and looked at each other or straight ahead. There were many remarks to be heard but all were uttered in a low tone of voice.

The motorman of the [illegible] train which was the center of attraction and the crew of another that came up behind and stopped walked around quietly saying nothing and nearly everyone in the throng could see a worried expression on the faces of these men, particularly those connected with the first train.

In the meantime the crowd grew to large numbers.

"Yes," said one of the watchers, "there is a man under there. I can see him. Just stoop low and you can see him. He's all crushed up near the wheels. I can't see how he ever got in there back of all the trucks without being dragged. He seems to be all there."

"Yes," said another who had dismounted from his wheel while the first spoke, "I can see him. One of his hands is sticking out over the rail. I thought I saw a slight motion in it."

But he stopped short.

There was a motion. The hand referred to came out between the wheel of the car and the life guard. Then an arm came out. Then a sandy haired head and it was followed by a very much mud-be-

The Gazette is delivered to regular subscribers by early morning carriers in Denver Boulder Cripple Creek Victor Pueblo Canon City Florence Colorado Springs Manitou Colorado City and Broadmoor and can be obtained from the news-boys and at the news-stands in each of the above places

THE GAZETTE has more than double the circulation of any other daily paper published in Colorado outside of Denver.

It has 50 per cent greater circulation in Colorado Springs and vicinity than any other daily paper published in Colorado Springs.

It furnishes sworn statements of its circulation to advertisers, and its paid circulation is guaranteed by the Advertisers' Guarantee Company of Chicago.

IS IT PATRIOTISM OR TREASON?

SUPPORTERS of Mr Bryan take pleasure in stating and repeating that they are standing for true patriotic principles, whereas the Republicans are seeking to destroy the government

All of this discussion and apparent feeling grows out of the Philippine matter which as yet has never been passed upon by congress and a government for which has [illegible] by any person or party now in power, of an armed insurrection which has been maintained ever since our acquirement of the islands and which is not yet suppressed.

Mr. Bryan was one of the chief instruments through which we acquired the Philippine Islands for had it not been for his personal influence exercised on Democratic members of the United States senate the treaty of Paris would not have been ratified and the title to the Philippine Islands would still be vested in Spain That treaty provided that the United States should pay Spain $20 000 000 in cash for Spain's title to those islands It also provided that Puerto Rico should become the property of the United States and that Spain should relinquish all of her title to Cuba

Had Mr Bryan been so anxious about the welfare of the Filipinos as he now professes to be, why did he not insist that the peace treaty should provide for the Philippine Islands being transferred to the Filipino people the same as Cuban independence was assured by the same document?

The reason he did not was because the first shot of the Philippine insurgents had just been fired upon the American soldiers and the American people were burning with indignation. Thousands of those shots have been fired since and some of the best manhood of America has found a grave in those far-off islands upholding the glory of the American flag and the power and dignity of the American nation.

It is cruel to believe the horrible fact that many thousand American soldiers have found their graves through rebellious bullets fired under the inspiration of treasonable and demagogic political speeches at home. There can be no question but that complete peace would long ago have been established in the Philippine Islands had it not been for the attempt to make an issue of the question in the presidential campaign Now the embers of rebellion are being again fanned into a flame by the speeches of Mr Bryan and his supporters.

A Filipino circular has recently been widely distributed and posted in every native town and signed by a native leader.

The following extract shows what influence is keeping the rebellion alive:

"I have the great pleasure of informing your excellencies that you may in your town cause to be publicly known that data, according to the foreign newspapers, very strongly favorable to the independence of our fatherland exist in the fact that the party of the North American people which calls itself the Democratic party, preserving unimpaired the ancient principles and traditional institutions by which it obtains its [illegible] independence of its own country, enamelpating it from England, sustains and defends today with order the declaration of independence of the Philippines, and that the Massachusetts periodical having the widest circulation among the agriculturists of the country known under the head of the Farm and Home, having interested its subscribers in the subject, asked that they manifest themselves in favor of the independence of the Philippines or their annexation, with the following result

	Independence	Annex
New England	1 277	785
Middle states	8,488	2 143
Central west	4 901	3 102
Southern states	1 792	1,083
Pacific coast	1,684	1 103
Total	18,512	8,419

"May Providence decree in the elections for president of the United States the Democratic party, which defends us, shall triumph and not the Republican party, which is headed by Mr McKinley, and which attacks us

"The great Democrat, Mr Bryan one of the most eminent men of the United States, is assured that he will be the future president and then our happy hours begin

"There have also been celebrated in New York and Chicago great meetings and banquets in honor of our dearly beloved president, Sr. Aguinaldo, who was entitled one of the world's true heroes The masses who have thus voted in our favor have done the same with reference to Cuba, asking her independence, for which she is already today struggling

"Finally, the conduct of the Filipino annexationists condemns itself—they have changed their flag as they change their shirts, and are animated [illegible] by the momentary lustre of stolen gold, but by their vile conduct, aided by their thieving country, they are only raising their own scaffold"

Right well does ex Senator Peffer of Kansas deal [illegible] as to why he the father of Kansas Populists, is opposed to Bryan and in favor of McKinley.

He say

In the first place after vehemently urging on a war with Spain and after an unbroken series of victories of our arms on sea and land after an energetic and successful conduct of the war terminating in a treaty placing us at the right of the front rank of the nations of the earth, with new and grave responsibilities attaching after all these splendid achievements, the Democratic party, aided by its fusion allies has raised a hue and cry charging all manner of public crimes against the administration, despotic use of power usurpation fraud, corruption perfidy calling on the nations to behold our national shame and beseeching their own countrymen to aid them in their wicked onslaught on the good name, the honor and dignity of their people

"I look on this brazen assault on the honor of the republic as little less than treason and the success of the Republican party alone can prevent the attainment of the end sought by the unholy alliance If there were no other reasons this alone would insure my vote for the Republican candidate for the presidency

It is more necessary than ever before for all Republican party matters to be conducted in the open this year It is not a good time for caucuses or coteries to try to run or control party affairs Victory is assured if the masses of the party can feel that they have some [illegible] in the [illegible] candidates to be voted for

There is not much danger of Illinois going for the party of calamity this year

Her wheat crop amounts to 32 997 000 bushels of which 8 901,000 are for shipment Her corn crop will be the largest ever known This year the corn area amounts to 8,051,000 acres, an increase of 1,110,000 acres over 1899

THE ALLIES IN PEKING.

THE dispatches contain the gratifying news that the allied armies of Europe and the United States have reached Peking and that all foreigners at the legations have been rescued

For this result much credit is due General Chaffee, commander of the American army in China and to President McKinley and Secretary Hay for their firmness, promptness and determination of purpose

When the march on Peking was begun many rocking-chair military critics had themselves interviewed and said it was reckless folly to undertake such a march with so small an army and the Bryan Democrats went as far as they could against an aroused and patriotic public sentiment to demand that congress must be called in extraordinary session before we could rescue our minister and other Americans from impending murder in the legation at Peking

Had these dilettante critics on the one hand and these demagogic politicians on the other been listened to for a moment the death of every foreigner in Peking would have been an assured and accomplished fact.

Fortunately for civilization and most fortunately for the good name of our own country we had at the helm of national affairs a man who was inspired with patriotism instead of filled with tricks for playing to the galleries and whose courage never faltered in the line of his duty to protect American citizens wherever they might be as long as they were sheltered by the American flag.

We presume now that the crisis is past the Democratic criticism of the president's course will begin in downright earnest and that they will formulate a campaign issue on his imperial conduct in saving lives and property without their express permission.

It makes the heart of every true American citizen beat high with pride that in these days when the prestige, influence and character of the American people are being put to the test by the powers of the old world that we have not in office the Bourbon Democracy of America with its policy of retrogression and cowardice but that instead we have twentieth century men who fully grasp the splendid destiny in store for us in planting the seeds of liberty and self-government all over the world and in firmly establishing our country as the leading commercial and manufacturing nation of the universe as well as the prime mover in all channels of advancing civilization

The strategic importance of the Philippine islands as an American naval and military base could not have been better demonstrated Had the present Chinese trouble occurred three years ago we could not yet have had an army landed in China and we would have been utterly powerless to protect our citizens

The United States has no war of conquest to make in China or elsewhere We want no Chinese lands If we have been damaged in any way we shall expect full indemnity therefor and we will undoubtedly demand proper guarantees for the protection on Chinese soil of our citizens in the future

The civilized world will breathe easier and it will receive a sign of relief that matters in China are no worse than they have turned out to be

Germany will have quite an account to settle with China for the murder of her minister

The other European nations may consider this a favorable opportunity to settle many old and long pending eastern disputes but with such questions we have nothing to do and it is certain our government will not get entangled in them

The American people are particularly thankful that no ill has befallen Minister Conger. His conduct in Peking has been thoroughly becoming to the brave, strong, determined, sensible man that he is

RAILROAD ADVERTISING.

SOME of the best and most effective advertising which Colorado receives is from the railroad companies doing business in this state

The fact that they are seriously interested does not lessen the value of the work to the state itself If the war with Spain had produced no other result than the nationalizing of public sentiment, which has taken place as a sequence of that war it would well be worth the blood and treasure spent in its prosecution

Time was when Americans east of the Missouri River wished for mountain scenery they hied themselves off to the Alps of Switzerland and when feeling [illegible] they could [illegible] no nearer than Carlsbad There were no gowns fit to wear outside of Paris, and no husband fit to wed a millionaire American heiress outside of European royalty The short period of hostilities when it looked as if the United States had to face all Europe, aside from England served to revive the old American spirit and today more goods are bought at home, more men are married at home, and more [illegible] visited at home than at any previous time in the history of the country

To these things chiefly do we owe our present unprecedented prosperity.

The east now vies with the west in advertising our resorts in picturing our magnificent scenery and in praising our wonderful climate

Even the New York Central railroad is now engaged in the laudable enterprise of calling attention to the charms and beauties of Colorado.

This sort of work helps every section of the country and keeps yearly millions of dollars at home which formerly were spent abroad It is also being rapidly demonstrated to people at home and abroad that there are no resorts, watering places or mountain scenery on the continent of Europe equal to those in the United States

COLORADO SPRINGS AND MANITOU.

EVERY hotel in Colorado Springs and Manitou has been crowded to its fullest capacity during the past two weeks There is no resort place where so many excellent hotels can be found as in these two cities But visitors should not feel discouraged on account of the crowds in urging their friends to come here next year By that time the new Antlers hotel will be completed and it will [illegible] and then the new million dollar hotel at Manitou will be well under way and possibly completed in time for next summer's business

There is no mountain resort in the world equal to Manitou and the crowds which fill it this year are loud in singing the praises of its natural beauty

ROCKY FORD'S FESTIVAL.

THREE days this year will be given by the hospitable people of Rocky Ford for visitors to sample their delicious melons Neither will any person be stinted in the number he may wish to devour And such melons!

They seem to have gathered all the nectar of the ages and each seems to be flavored especially for the individual palate of the consumer How is it possible for the sandy soil of Colorado to produce such melons? asked a Chicago man recently

Perhaps the Rocky Ford people will tell you this chemical secret at the time of their festival In any event they will give you the most luscious results that ever tickled a cultivated palate This festival is to be held on September [illegible]

The Santa Fe railroad has given a one fare rate for the round trip Every person who can spare the time should attend the festival and see the wonderful progress and development going on in the Arkansas valley

The trip will be a revelation to strangers in the state

A pugilist was recently bitten in Denver while trying to stop a dog fight There is the largest assortment of moral lessons contained in so simple a story The most obvious is that virtue is its own reward

FROM THE PRESS OF THE NATION.

Bryan's Essay on "Imperialism."

(New York Sun)

Bryan's long-winded and dreary essay on imperialism is reduced to absurdity by the proceedings of his followers in disfranchising the negro citizens of the southern states Even if that policy of the Democratic party is justified on the ground of expediency of the necessity of white supremacy, none the less of course does it lie in the face of the consent of the governed principle of the Declaration of Independence, to which Bryan expresses so tender a devotion

At present there are about 10,000,000 negroes in the United States or about as many as the population of the Philippine Islands Under the constitution of the United States, by an amendment of thirty years ago the principle of the Declaration of Independence that governments derive their just powers from the consent of the governed, was consistently extended to the American negroes, who comprise nearly one seventh of the whole population of the Union, and the states were forbidden to deny or abridge their right to vote on account of race, color or previous condition of servitude

Nevertheless the Southern states absolutely dominated by Bryan's party have disfranchised their negro citizens in flat denial of that principle of the Declaration of Independence and in violation of the constitutional provision yet Bryan has nothing to say in condemnation of the proceeding His tears are all for the Filipinos

Southern negroes who had enjoyed the suffrage for thirty years, under the constitution, are now deprived of it and are governed without their consent Not has this been done on the ground of their ignorance but solely because of their race and color for white illiteracy is not excluded

What respect, then, will the American people have for Bryan's professions of devotion to the principle of the consent of the governed? The Bryanite platform declares that "to impose upon any people a government of force is to substitute the methods of imperialism for those of a republic" What except [illegible] ment of the negroes in violation of the constitution?

"The right to self-government which the constitution gave them thirty years ago has been taken from them by Bryan's followers and they are compelled to submit to government without their consent

Bryan's long essay on 'Imperialism' read yesterday is therefore really an attack on his own followers and on nobody else

Bryan's Speech Reviewed.

(Salt Lake Tribune)

The Brooklyn Eagle's review of Mr Bryan's acceptance speech is the product of a most masterful brain We are sure that our readers will be grateful that we reproduce some striking extracts from it The Eagle says it is patriotic "in the estimate of those who know just enough of the fathers to parrot their phrases and ignore the application of them and whose idea of duty is the enamalment of their country [illegible] its spirit, the trailing of its flag the [illegible] and galvanization, into a seeming life of all the buried heresies with which sundry prosperity rejection self-interest and benign progress parted company, without regret and, as was hoped forever, long long decades ago

Then after pointing out that Mr Bryan's election would mean [illegible] in this strain

"Nations grow Men advance Peoples move forward, but the Bryanite embodiment simply marks time in the image of its own egotism and impotently treads out one more the rejected husks of a dead past When the reality of the things that are is placed in contrast with the shrillest utterances of the apprehended quotations from departed statesmen with which this prophet is [illegible] our [illegible] in astonishment at the [illegible] its performance is exhibited to view Why this untouchable and unconscious [illegible] sustains no more likeness to the Jefferson to the Lincoln to the Clay to the Webster and to the Franklin from whose he borrows wrested sentences than the strutting and strident subordinates of the stage sustain to the imaginary lukes, the apocryphal kinks and the mythical gods whom they would impersonate in [illegible] robes and in memorized speech"

The Eagle says the speech was a wail in defense of an intended indictment and would be [illegible] A wail that men know more than they will while ago they they know that In the paramount [illegible] of national law are the safety of [illegible] present and the security of the future that the application of imperialism in America is as absurd as the search for dinosaurs at either pole The article continues as follows

The defense of Mr Bryan's would be justification of his support of the ratification of the treaty with his opposition to the fruits of the ratification brought and the duties [illegible] to. The defense is not [illegible] infectious or ingenious she must [illegible] to explain away the one exception of his influence for which he should [illegible] apologize and which stands to his [illegible] along with his enlistment in the Alaska He would put even upon his party [illegible] the stamp of partisanship and would thus do more injury to himself than his opponents could possibly inflict

The indictment involves Mr Bryan's series of objections to what our government [illegible] Puerto Rico and the Philippines [illegible] them the president [illegible] executing the law of nations, the treaty-power of congress the obligation to maintain rule and the duty to put down rebellion Nothing he [illegible] nothing of it could tomorrow [illegible] and [illegible] by Mr Bryan [illegible] president The American people require their presidents to do [illegible] Washington did and McKinley is doing either with territories at peace or against insurgents in them exactly what Bryan will have to do should he ever become the chief magistrate of this people

The prescription is for the assemblage of congress to tell the Filipinos that if they will stop fighting we will stop and that if they will forgive us we will give to them first a government of our making for them, then their control of that government of our own making and finally our protection of them against the world in any success or failure which they show in controlling the government of our creation which we will present to them We are content to give that prescription divested of its incongruous rhetoric its interminable verbiage and its dancing dervish egotism to the plain thinking of plain men The president is already laying the foundations of Americanism in the Philippines The nation is pledged to accord to the people there as large a measure of local freedom and local control as by obedience order and decency they show they can appreciate [illegible] stamping out the embers of a guerrilla-ism which are all that remain [illegible] was once a conflagration of rebellion With the soldier goes the schoolmaster with both the lawmaker and over [illegible] the flag that is safely as far as the Pole of events there yet permit us to go The future of policy there will depend upon the indestructible love of Americans for liberty order and justice The Bryan programme would sacrifice all that has been projected would indicate the [illegible] murderers in theft every deed and word to condemn everything which has occurred there under the authority of the nation from the [illegible] to New York into the harbor to that of the effort of Taft and his colleagues to plant civilization in the east under the auspices of the freest country on the globe Better far for us to protect order and liberty there in our own name for our own good and for the good of the Filipinos and the world than to make the murderers and the poisoners of our troops the instruments of our purposes and plans"

The article concludes as follows

Bryanism means the estimate of Dewey and Otis of MacArthur and Taft of Schurmann and Denby as wrong-doers and of Aguinaldo and his murder-gang as right doers in the Philippines, with our surrender and apology to them and our protection of them against the world McKinleyism means the reduction of these mongrel rascals to order and their lifelong sentence to [illegible] the benefits of good government at our hands which hold in the Philippines the keys of power of civilization and of destiny in the east. Choice there should not be hard

"Bryanism means the ignorance, the unrest the dishonesty the delusion the insanity and the disorder of the country under a dreaming roarer or a roaring dreamer McKinleyism means judicious republican, progressive conservatism the maintenance of honesty of tranquility and of security for our people here and for our people abroad and the measurement of the nation to the duties of the marvelous times into which Providence has cast [illegible] the republic"

Coler Defies Croker.

(Boston Transcript)

Comptroller Bird S Coler has given new proof of his fearlessness by making Boss Croker's dictum, "I am working for my pocket all the time" the text of a vigorous preachment on 'Commercialism in Politics," published in this week's Independent The things that he says about municipal corruption and machine politics are not new They are familiar to every intelligent observer of existing political conditions but the manner in which they appear in such a paper as the Independent and the prominence of the candidate for the governorship in a state dominated by the very machines which he attacks, Mr Coler has furthermore followed up his article by an interview in which he emphatically reaffirms all that he said. He declares that his statements apply with equal force to both political machines One has only to look about him he says to discover that commercialism does govern in New York politics Many of the directors and trustees of the charitable institutions [illegible] are apparently to sell supplies to these institutions. The same spirit permeates hundreds of institutions and it is spreading constantly Unless it is brought to a pause, disaster will certainly follow Mr Coler has the courage to take up the fight against political corruption by refusing to seek machine-made support in advancing his own political interests He throws down the gauntlet before the Tammany boss by declaring, 'Will I a candidate for governor, I would not care who that those politicians now at Saratoga were for or against me

This open defiance of Tammany Hall is refreshing. If politics are to be [illegible] there is an urgent need of wisdom this can be accomplished only through the efforts of men like Mr Coler, who will unhesitatingly denounce corrupt practices and keep clear of entanglining alliances with the bosses The spectacle of great business concerns using relations with public officers and officials for private gain has become [illegible] ment There are men [illegible] Mr Coler, 'in New York and others in almost every large city in the country [illegible] ing large incomes from the business of selling political favors who would resent as gross libel a suggestion that they were dishonest They have simply engaged in the business of politics and are making out of it what they can With the trade of such men it is not a case where business ends and politics begins

The general indifference to this state of affairs is doubtless to be explained by the dominance of the commercial spirit all the world over, as well as in American life. Statesmen and politicians are simply doing in their line what the rest of us are doing in other businesses The remark which a New York business man once made to Mr Andrew D White should be set beside the Croker dictum 'We find' he said 'that it pays better to neglect our city affairs than to attend to them that we can make more money in the time required for the discharge of our political duties than the politicians can steal from us on account of our not discharging them' This is the sort of spirit that finds it convenient to settle all by supine indolence and to [illegible] of appointees to [illegible] and encourages political corruption The abuse can be checked only by the cultivation of a moral temper by which the best men in every community shall sacrifice the pursuit of private pecuniary advantage to the public of public service

The Population Center.

(St Louis Globe-Democrat)

The high rate of increase of population reported in Buffalo and Providence may give rise to the query as to whether the center of population in the present census will move westward An increase of population of about 20 per cent has been reported in Washington in the last ten years 9 per cent in Cincinnati 7.6 per cent in Louisville 15 per cent in Buffalo 19.4 per cent in Milwaukee and 33.88 per cent in Providence Those are the only important cities whose population has been reported thus far by the census authorities

It will be noticed that the highest gains are in the Eastern cities of Buffalo and Providence except that reported for Milwaukee The lowest increase is in Cincinnati a Western town This is much lower than that reported in Washington Moreover Providence is the only city whose figures have been sent in which has reported a proportionate gain in the past ten years exceeding that of the previous decade It shows a higher rate of growth even than that which its authorities claim and which is a still more remarkable circumstance All this may give rise to the presumption that perhaps the estimates in most of the eastern centers were more conservative than were those in the west and that after all the full returns may show fully as great a gain in the population of the states east of the Alleghenies as was scored in those west of that range

In the state censuses of 1895 it was noticed the gains were somewhat greater in the east than in the west Only about a quarter of the states had counts of population in that year but the growth was greater in the eastern commonwealths and one state Kansas reported a decline between 1890 and 1895 In 1790 the population center of the United States was about 23 miles East of Baltimore Since that time it has been constantly moving westward at an average rate of about five miles a year In 1890 the center was 20 miles east of Columbus Ind It was expected that the count of 1900 would show that that point had moved about 56 miles nearer to the Illinois line but perhaps this expectation will be disappointed The chances of course are that the west ward movement of the population in certain is still under way but it is safe to assume that a smaller expanse of ground will be covered than in any previous decade.

JUDGE COLBURN IS LIBRARY DONOR

Prominent Local Attorney Gave the Four Thousand Volumes to the High School--Name Has Been Witheld.

The donor of the handsome library of nearly 4 000 volumes which is now being put in place in the Colorado Springs high school is Judge E A Colburn one of the ablest and most prominent attorneys of Colorado Springs

This announcement will be received with profound interest by the people of the city The fact that the library had been donated was made public last spring and the fact that it had been selected purchased and received at the high school had been made public during the early part of the summer but throughout all the time that the matter has been in contemplation and in execution the name of the donor has been a profound secret known only to himself and to Rev Edward Braislin D D pastor of the First Baptist church of which the donor is a member and whom Judge Colburn made his agent for the expenditure of the money with which the library was bought

Judge Colburn would have preferred that his name remain unknown indefinitely but the persistent pressure brought to bear by people had led Dr Braislin to think the name of the donor and Dr Braislin also being anxious to have it made public Judge Colburn yesterday gave his consent

No announcement has been made as to the specific motive which prompted Judge Colburn in donating a library to the high school It stood foxy with the same amount of money in some other of the many ways in which he might have done it It is understood however that the friendship which existed for many years between Judge Colburn and the late principal of the high school George B Turnbull had something to do with it Mr Turnbull was always anxious to have a library that would be a credit to the school and had frequently asked Judge Colburn when the two would be together how soon he (the judge) was going to complete that library The donor thought over the matter for a long time and the result of his deliberations is now being worked out

The books which are being added to the library as a result of the gift by Judge Colburn number between 3 000 and 4 000 volumes selected by the various teachers of the different departments in the institution with a view to making the library in exceptionally complete and up to date one Dr Braislin spent several weeks in the early part of the summer in the east making the purchases and the books have been in the basement of the high school for the last two months awaiting arrangement on the shelves of the new library

The room that was formerly used by Mr Clark as a recitation room for English was which till summer is the school library and is now being fitted up for the purpose The work is not progressing as rapidly as might be desired but it is expected that the books can be arranged on the shelves by the time the school year opens a few weeks from now and that the library will be available for use from the beginning of the year

McKinley's Strength In the Northwest

You may count on 4 000 majority for McKinley in Wisconsin 1 000 majority in Illinois Minnesota and 10 000 majority in Iowa Such was the prediction of the president of the First National bank of Burlington Ia in conversation with a Gazette representative at the New Alamo last night Mr Carson is at the head of a number of large lumbering companies operating in the three states named and a heavy stockholder in a number of others His business takes him traveling a good deal of the time and he speaks with knowledge

The Democratic party will secure a majority of the German votes in Iowa and Wisconsin he continued partly on account of internal dissension but that element is rapidly returning to both these states The Democratic party in Burlington Dubuque and in fact all of Iowa and they are also the case in Minneapolis Milwaukee and other Wisconsin cities The Norwegians and Danes of Minnesota who are a big portion of the votes cast at each election cannot be shaken by the horrors of imperialism nor anything else the Democratic party has managed to scare up by the light he has had The laboring classes are receiving more for their work than they have in many years and no one wants to risk a change In the logging camps of Minnesota five years ago we got all the men we wanted at our own price and put a board in camp but this year the price is well up In most cases we pay $1 a day and board and have to be very careful to retain our men at that as there is so much more work than we have hands to do In all one third more men are employed there in all branches of business than there were in 1896 and the men employed in all these industries are too busy now to talk anything but Republicanism—the full dinner pail

I think time is intensifying to stand only a day before taking his wife to Salt Lake where he will start for San Francisco but they found Colorado Springs such a delightful place to stay they have remained for nearly a week and are not decided to go at all

Will Gain Citizenship In the City Jail

In a little over an hour after Ed Higgins had paid a fine of $5 and costs for fast and reckless riding yesterday morning in the police court he was again arrested on the same charge This time he has a comrade in his trouble Franklin Chappius Both are in jail

Higgins was arrested the first time Thursday night by Officer Thomas after an exciting chase on horseback only after the fugitive had thrown his horse off its feet and into a fence in an attempt to turn a corner He was thrown violently to the sidewalk and though he escaped injury the horse had its legs badly skinned and was generally bruised Yesterday it was still lame and in such condition that it could not walk After he had been released yesterday morning he was joined by young Chappius and the two got a pair of Mr Francis Pasterius fancy saddle horses and soon were racing them on Bijou street Officer Thomas saw them from a distance and when they returned to the barn arrested them

Mr Pasterius had enjoined Higgins who claims to be a jockey to thoroughly break his horses so that his boys could ride them Higgins is not in his employ now and will have to get out of his trouble the best he can as Mr Pasterius says he is through with him

Chappius was arrested last week for running a horse to death

We would rather loan you a $2 for $1 than to borrow $5.000 of the bank to pay bills.

ROGERS, FEET & CO'S CLOTHING

CRESCENT CLOTHES FOR BOYS

Buttonhole Interviews

Samuel E Monk city ticket agent for the Denver & Rio Grande Express says that he does not remember of a time when there was such a demand for literature about Colorado as there is this summer Tourists want it for their own edification and to send to their friends back east Regarding the literature the Rio Grande is putting out and judging from the immense business of the road it is of the right kind he said Just look over the different descriptive pamphlets our representative sent out and you will find that all of the more popular ones have editions running into the hundreds of thousands They go all over the world and reflect the fame of Colorado and open up the way for the development of its resources as well as advertise the Rio Grande as one of the greatest scenic routes on the globe Several years ago a copy of the little book Rhymes of the Rockies was picked up at the foot of one of the pyramids of Egypt and that is only one instance which shows their wide circulation I am sure that the Rio Grande has spent over a million dollars in advertising since the building of the road

We calculate on having the biggest celebration this city has ever witnessed of its kind said Commissioner Green way of the county board yesterday in speaking of the cornerstone laying for the new court house next Thursday We have sent notices to the little towns and close roads of the county and from what we can see will be coming to attend the celebration The Masons too will bring a large number of their members since the ceremonies are to be under their auspices and it is certain to be a big event The pioneers will occupy conspicuous seats on the platform as an impressive feature of the progress from nothing to the handsome building about to go up which the county has made since they came here young men and laid the cornerstone of a city

There is one hardasher in Colorado Springs who will be more careful after this of what he says to people about his stock The county commissioners in raising a number of assessments of stocks of goods have found it necessary to visit the places involved in a body and make examinations for themselves

Yesterday morning they entered a gents furnishing store and the proprietor very graciously started to escort them through the establishment Of course he made it point to impress the visitors with the lack of value to all solid goods that had been left out in other ways to win their appreciation of his claims

Now here's a stock of hats said the dealer that is absolutely valueless We are preparing to take them off your hands

What's that almost shouted Commissioner Doran If that's the case with this lot of sky pieces I'll just bring my family in and buy a hat if you like

$4 for not a week ago said the dealer to himself and the commissioners left

BAND MATINEE IN SOUTH PARK TODAY

Prof Irvine has arranged the following programme for this afternoon's South Park concert commencing at 3 o'clock

March Selected
Overture—Fra Diavolo Auber
Intermezzo Les deux Fleurs from Naila (By request) Delibes
Selection—The Fortune Teller Herbert
Fantasie—Auld Lang Syne (By request) Dalbey
Intermission of ten minutes
Two Step—At a Georgia Camp Meeting (By request) Mills
Selection—The Isle of Champagne Luret
Patrol—Old Folks at Home (By request) Irvine
Lull—In a Music Store Orth
The composer tells a story in music of bird life in captivity morning dawn the winged minstrels are still wrapt in slumber the sun peeps in at the windows and they awake the quail the robin and the rooster herald the day the canaries warble and one by one the other birds join in the merry concert Polly wants a cracker The cardinal and the cockatoo sing a duet accompanied by the ringing chorus of jolly canaries the sweet plaintive song of the caged nightingale is intermingled with the jubilant notes of the thrush the finch and other birds The shades of night settle and the bird store The birds are sleeping A stray cat jumps against the window her hissing and clawing frightens the sleepers The angry scolding of Polly drives the peace breaker away and the birds rejoice in victory Selected

THE MAY INVESTMENT AND BROKERAGE CO., COLORADO SPRINGS

BULL HILL CONSOLIDATED COMPANY

Additional Purchases of Valuable Ground on Bull Hill Have Been Made Operations Have Been Conducted Quietly.

The Bull Hill Consolidated Mining company has made purchases of valuable mining property adjoining its former holdings and rounds up the consolidation of properties it has been for months past perfecting upon the best portion of Bull hill.

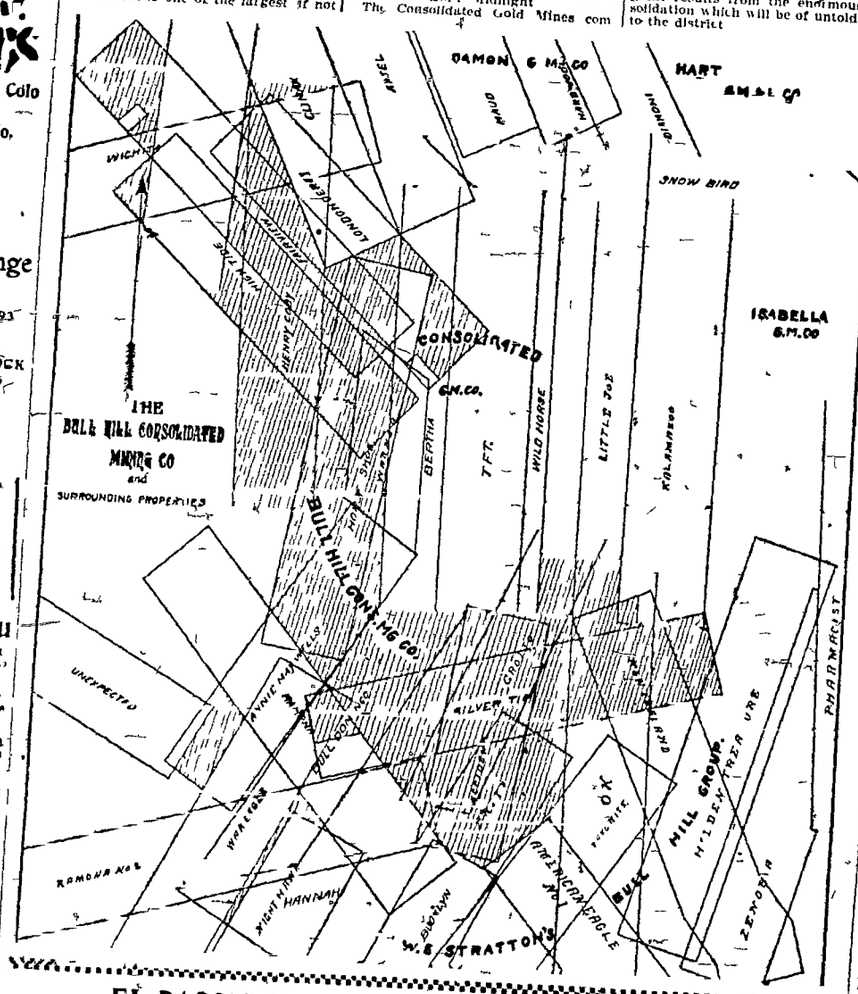
By the purchase of portions of the New Zealand O K and Kalamazoo from the Magnolia Gold Mining company the Bull Hill Consolidated Mining company accomplishes the last step in the purchase and consolidation of extensive interests upon Bull hill. Each of the properties embraced being among the most valuable in the Cripple Creek district and the entire group containing a very large acreage making one of the most valuable and promising properties in the camp.

The operations of the Bull Hill Consolidated company have been conducted quietly and the vast results have been accomplished with little commotion and a minimum of newspaper comment. The reason for this was that in the purchase of such important territory it was necessary for the promoters of the company to act quietly in order to avoid being compelled to pay fabulous prices for such valuable ground. As it is the investment is one of the largest if not the largest that has been made during the year in Cripple Creek but it has brought about the result desired by the Woods investment company the incorporators in bringing into the consolidation territory as located that a large output is insured with a minimum amount of development. Ore bodies of considerable extent are already in sight and every acre of the territory is of high value both on account of location and present showing. As maps of the district will show the properties of the new company lie to the west and south of the Cons Bull Hill Gold Mines company in one of the regular dividend payers of the district the most valuable of W. S. Stratton's purchases in Cripple Creek join the Bull Hill Consolidated company's ground upon the south and the Bull Hill company's holdings extend to the Silver Tip of the Bull Hill Consolidated upon the east.

The claims which the Bull Hill Consolidated Mining company owns controls or is interested in areas follows Henry Clay Horse Shoe Londonderry Fairview High Tide Wichita Climax Warner Annie Mac Wells Bull Dog Mining Grotto Accident Hannah Britt Silver Tip New Zealand O K Christmas Baby Doll Midnight.

The Consolidated Gold Mines company controlled by the Woods investment company was perhaps the quickest dividend payer to become during from the initiation of active mining operations. The Closson shaft of this company located but a short distance from the Bull Hill company's holdings on the west and south has attained a depth of 500 feet and will be rapidly sunk to the 1,000 foot point. Arrangements have been perfected between the two companies which enable the Bull Hill Consolidated company to quickly drift from the 500 foot level and from all other levels of this shaft into its own territory and open up several known producing veins at great depth within a few months while under different auspices the sinking of a working shaft and accomplishing the same results would take a year or more and entail a heavy expense.

The incorporators of the Bull Hill Consolidated company have reason to anticipate and feel absolutely certain that this will be one of their greatest Cripple Creek enterprises and in a few months one of their heaviest producers in fact there is no question as to the results and the public may look for great results from the enormous consolidation which will be of untold value to the district.



EL PASO'S JULY OUTPUT

Beacon Hill Mine Ships 280 Tons with an Average of About 3 1-2 Ounces.

For the month of July the El Paso mine on Beacon hill shipped 280 tons of ore the value of which was $15 [illegible] This the average value of the ore being shipped from this property is about $54 per ton. This was hoisted while the El Paso is engaged in preparing and laying out its ore chutes and in addition to this the ore shipped is from the lowest workings.

When the depth of 610 feet is attained a cross cut will be run to explore the vein and when this is once uncovered and found productive a crosscut starting at it will be run to connect with the shaft. This will be the effect that the El Paso people have decided upon as the best plan for the development of the property.

In sinking the shaft work has not been at all impeded by a flow of water as generally is encountered in great depths on Beacon hill. A stream of water has of course been struck but this is kept well in hand by the efficient pumps.

SELLS ON BULL BUYS ON GOLD

Magnolia Company Parts with its Bull Hill Fractions and Secures Nearly Ten Acres on Gold Hill.

The Magnolia Gold Mining company has now sold all of its Bull hill territory. The Bull property disposed of is the seven claims of the New Zealand and O K group south of the south side line of Shaft No 2 being the fractions not sold to Mr Bullwinkle which will form a portion of the Kalamazoo group.

With the deeds of this sale the Magnolia company has purchased the Silver Tip No 1 and Gold Hill adjoining the Silver Tip on the north and the Little Mack on previously owned by the Magnolia company giving them the possession of seven claims grouped around this block. In addition the company owns the Tell Rose placer over 5 acres patented also mining rights of the Cripple Creek Gold Exploration Co. Flip [illegible] have sold to Bullwinkle taken up [illegible] and patented. This move to be followed presently by the acquirement of both the Mount [illegible] and [illegible] claims.

In [illegible] upon Bull hill was in part the result of too small extent to justify the Magnolia company in performing [illegible] development work which would probably be necessary to bring about results in the way of output and the Bull Hill company's [illegible] the Bull Hill company's [illegible] and rounded out some irregularities in its block of Bull hill acreage.

SHIPMENT FROM UNEXPECTED

Only Averages $27 a Ton -- Twenty two Tons of the Stuff Sent Out.

The lessees on the Unexpected claim of the Central Consolidated company sent out a shipment from the mine of their recent strike some two weeks ago and yesterday returns were handed in from the smelters.

The [illegible] of the shipment [illegible] the [illegible] which has fully [illegible] expectations in the [illegible] by the lessees and the management of the mine. There was sent out [illegible] having been [illegible] which [illegible] the best [illegible] rock of all the mineral hoisted. This consignment was the first parcel of ores [illegible] and there is no reason why the [illegible] should not [illegible] ments have been [illegible] casions that the average value of the [illegible] only discovered ore was at least $100 a ton.

A second shipment weighing 10 tons has left the lessees workings and it is hoped this [illegible] of high grade [illegible]

It [illegible] [illegible] [illegible]

Safe Money Making and Interest Paying Investments

Cripple Creek stocks offer to careful investors unexcelled opportunities for handsome profits and also offer large interest on the money involved Investment under proper guidance in the meritorious prospect stocks promises substantial profits within a very reasonable time The dividend payers assure splendid returns on the money involved Both guarantee safety against the loss of the original investment

SOME DESIRABLE DIVIDEND PAYERS

There are several dividend-paying Cripple Creek stocks which offer especially attractive investments They are entirely safe and assure the investor excellent interest There are three of these dividend payers that will also yield handsome profits, in our opinion, if bought now Write us for particulars

A GOLD HILL BARGAIN

There is a Gold Hill stock now selling around 6½ cents per share which we believe is destined to become one of the best-profit-making-prospect-stocks on the market This stock is backed by about 50 acres of choice ground located on nearly all of the famous hills of the camp by sound conservative and careful management, and by active development work the three essentials to the ultimate success of a Cripple Creek mining proposition We strongly urge the purchase of this stock at once in as large amounts as possible, as we are convinced of its intrinsic value and ultimate sharp advance in price Write us for particulars

Conservative Investors

recognise the value of our advice and judgment, knowing that we represent the conservative element in Cripple Creek investments We are glad to give our unbiased opinion, irrespective of whether trading is done through us or not We are interested in everyone who is interested in Cripple Creek mines or stocks

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs Aug 17—The same depressing conditions prevailed in today's market and there seems to be no end to this era of inactivity Trading was very light and prices were sluggish the fewest of the issues even varying to a noticeable extent There are various reasons attributed to the present dullness of the market It is the consensus of opinion that this being presidential year the market for investments is unnoticed A number of people announce that the distressing conditions of the world's affairs notably the troubles in China are largely responsible for the slump in stocks It is very strange that prices do not tumble but every one seems willing to hold on and the dullness of the market

TWO-FIFTHS OF MAUDIE MAY

Purchased by C. W Kurie as Trustee--Work Resumed by the Elk G M Co on its Mineral Hill Group

Special to the Gazette

Cripple Creek Aug 17 W S Stratton returned this week from Mineral Hill where he has purchased two fifths of the Maudie May Lode situated on the C O D slope of Gold Hill from Robert A Christy of Colorado Springs The consideration named in the deed is $1 800 It is reported that negotiations for the other three fifths are practically completed and if the deed has not already passed it will be transferred within a few days Work has been resumed by the Elk Gold Mining company on its group on the summit of Mineral hill A little ore is being saved from a drift now driven at the 50 foot level and will return about one and one half ounces Mr Stratton president of the company is supervising the work

The Bear Mountain Tunnel Mining company began an adverse suit in the district court today against Ellen J Fitzgerald The complaint states that the plaintiff company is the grantee of R L Perry who located the Alpha and Omega, Dec 12 1895 that the defendant entered upon the property by locating the Star of Hope gold mining claim The plaintiff company asks possession of the claim and damages of $100 00 In support of the above and $50 for attorneys fees The property is located in the northwestern part of the district

W B Felix who was quoted in the Denver Post yesterday as being one of the purchasers of Cripple Creek mining deals of importance being made to him as the representative in the Northern country by Colorado National Bank is in the city and will return to Denver tomorrow He was in the bear slide and left to prevent the loss in that district He has instructed his attorneys to look after the matter

W H Miller manager of the Union Gold Extraction company who is in Denver states that the plant of the company for the new mill at Florence is now installed and there will be no trouble in starting up the plant by Sept 1

INDEPENDENCE SHAREHOLDERS

Received Dividend, Certificate of Independence Consolidated Stock and the Following Circular.

The stockholders of Independence Town and Mining company received the following circular in addition to the dividend of 4 cents per share This also included the new Independence Consolidated certificates which were awarded at the rate of 5 shares for 1 000 shares of Independence T & M company

To the Stockholders

In accordance with the notice of dividend No 5 declared July 10, 1900 you will find herewith enclosed check amounting to 4 cents per share upon stock standing in your name upon the books of our company Aug 10 1900 together with a certificate of stock in the Independence Consolidated Gold Mining company equal to fifty two and one half (52½) per cent of your holdings in the Independence Town and Mining company on that date

The Independence Consolidated Gold Mining company is a corporation organized under the laws of the State of Wyoming with a capital stock of 2 000 000 shares of par value of $1 00 per share full paid and non assessable The property is the own of the Scottish Chief lode the Chiffonette lode the Reindeer lode the Minnie Belle lode the McNary Brothers lode the Little Life lode the Lily Bell lode the Little Giant lode the Crookham lot part of the Gettysburg lode the Marion lode the Uncle Jack lode the Blackburn lode the Dunham lodes No 1 and 2 the Son in Law and the Hull City placer claim containing about 46 acres free from all claims liens debts clouds or litigation The officers of the new company are Don Smith president W S Montgomery vice president B H Bell secretary A D Lemon counsel W E Dunham manager which with the officers constitute the directory The offices of the Independence Consolidated Gold Mining companies are in the Equitable Building Denver Co Application will be made at an early day to list the stock upon the Colorado Springs Mining Exchange

It is the policy of the new company to vigorously push development on the property with a view of accumulating a surplus and commence the payment of dividends at as early a date as is consistent with good management

The inclosed dividend is declared out of the proceeds of sale and transfer of all the property of the Independence Town and Mining company to the Independence Consolidated Gold Mining company which sale was consummated on the 28th day of July last Our company received in consideration for the sale of the assets 856 270 shares of the Independence Consolidated Gold Mining company and 1 000 000 in cash This cash payment in addition to the amount on hand in the treasury enables our company to meet all outstandings, obligations and to pay the 4 per cent dividend enclosed herewith The primary purpose of the sale was to effect a final settlement of all questions affecting title to the Hull City placer and other properties which were taken over by the new company It is believed that this object has been fully accomplished

Stockholders and the public generally know that for more than six years past the title to the Hull City placer has been the subject of most malicious and persistent attacks The management of your company successfully met all of these attacks and but a few months ago it seemed that practically all litigation had been disposed of About that time however new and powerful complications secured control of the numerous lode claims in conflict with the placer and work was renewed with increased energy Numerous suits were instituted in the civil courts of the state and the interior department at Washington was importuned to allow suit to be brought to annul the patent After a long contest such an order was granted thus placing the matter in such shape that it would be necessary to again try and determine the many questions involved in the litigation Over one hundred thousand dollars had already been expended by us in defending and while our expenditures were of course much less than would suffice to suggest the inquiry as to which party the fight had it won there would remain anything worth fighting for Many important witnesses who were acquainted with the facts as they existed six or seven years ago have left the country some were dead while others were controlled by the opposition

Having disposed of this property the payment of this dividend naturally winds up the affairs of the Independence Consolidated Mining company and I am pleased to say that the Independence Gold Mining company has in addition to the Independence Consolidated Gold Mining company acquired the Elk Gold Mining company and the Bear Mountain Tunnel Mining company and has in addition thereto and which is regarded as of great value a substantial cash working capital and we believe the present and prospective value of the new company is sufficient to entitle the holders of the new stock will eventually realize much more on their investment than they would have done had the old stock been retained in view of the fact that the future earnings will be expended in defending against pending and threatened litigation which already has resulted in results which after all are but law suits

Respectfully
W S Montgomery
President

J F Grigg Secretary

The ZOE Gold Mining Comp'y

I am receiving so many letters of inquiry about the Zoe mine and Zoe stock that I cannot find time to answer them promptly, and I take this method to give the latest information.

We are installing a steam hoisting plant, a substantial shaft house, and new ore bins, and are timbering our new shaft. We will have steam up not later than August 15th, and will have our shaft timbered by the 20th.

We have a large body of high grade ore in sight, and ore broken, ready for hoisting, and as soon as our surface improvements are completed we will begin regular shipments.

Zoe stock can only be purchased on the open market. It is sure to advance when we begin shipments. I consider it one of the best, if not the best stock, on the market for sure profits, and recommend its purchase

M. KINNEY, Mines and Mining Stocks.

PHILIP B STEWART, F H MORLEY,
K K BARRITT, LEONARD E. CURTIS,
HENRY HINE

107 East Kiowa Street, Colorado Springs, August 18th, 1900.

About four months ago this company bought the electric light plant and franchises of the El Paso Electric company. This purchase was made in pursuance of a plan we had for supplying cheap power, for which we believed a large market could be created here, and improving the service and reducing the price of electric light. For this purpose, we at once had plans made for a large electrical power transmission plant to be built on the coal field north of the city, and placed contracts for the machinery for equipping it. Contracts have since been placed for the power house, which is now under construction, and we have arranged for a supply of coal for a term of years at advantageous rates. This plant has been designed, and the construction of it will be supervised, by the ablest engineers in the country, and no expense has been spared to secure the best and most modern equipment in every detail.

The power house is designed for four generating units of one thousand horse power each, and two of these will be installed at once. The plant will be in operation about the first of January.

We have secured the services of Mr Henry Hine as General Manager of the company and of Mr G. A. Taff as Superintendent and Chief Engineer. Mr Hine was for a long time with the Westinghouse Electric Co. and afterward for several years General Manager of the Stanley Electric Manufacturing company, one of the largest manufacturers of electrical power transmission apparatus in the country. Mr. Taff has had large experience in steam and electrical engineering, especially in the construction and operation of power transmission plants. Both are perfectly familiar with all the recent developments in electricity, and with modern methods of management of electric light and power plants.

Pending the completion of our power plant, we have made many improvements in the electric light plant we are now operating by which we have effected considerable economies and improved the service. It was our plan when we took the plant over to keep the current on the lines at all times, day and night, as in the best modern plants, instead of during the night only as under the old management, but we found that many changes in the distributing system would be necessary before this could be done properly. These changes have taken time on account of the difficulty in obtaining the necessary apparatus and material promptly, but they have now been made in the lines covering the business part of the city, and the current will be on this part of our lines twenty four hours every day from this time on. We are putting the circuits in the other parts of the city in order as fast as we can get the necessary material, and expect to include them in the day circuit soon. This will be a great convenience to our customers by enabling them to use motors for fans and other purposes and to use lights in the day time in basements and other places insufficiently lighted.

We are making a very large cash investment in these plants and improvements, and we expect to put more money in as fast as the business demands it.

Our expectations as to the market for power have been fully realized. We have secured the contract for supplying power for the very large reduction mill now under construction by the Standard Milling and Smelting company at Colorado City, and have also just closed a contract for supplying all the power used by the Rapid Transit company. Other applications for large amounts of power have been made to us which we have under consideration, and we believe that the very low rates we are able to make for power will attract many industries here and contribute materially to the growth of the city.

We propose to use the large boiler plant at our present lighting station for supplying steam heat to the business part of the city under the franchise recently granted to us by the City Council. Ultimately we hope to extend this to the residence parts of the city. This will not only obviate the trouble and inconvenience of handling coal and ashes, but will cut down the rates of insurance and do away with the smoke which, under the present system, is rapidly becoming a serious nuisance.

By doing business on a large scale, adopting modern methods of management and using the best and most modern machinery and appliances, we are enabled to reduce the cost of producing current, and we propose to give the public the benefit of this by reducing rates.

We have already offered to give to the city, free of charge, ten arc lights for street lighting in addition to those now supplied under our city contract, and we expect in the near future to submit to the City Council a proposition for materially reducing the cost of street lighting and, at the same time, improving the service.

Although our power plant will not be in complete operation before the first of January we take pleasure in announcing now a large reduction in rates to private customers to take effect on the first of December. From that time on our present rate of twenty cents per kilowatt hour, with ten per cent discount on all bills paid before the tenth of the succeeding month, instead of the present rate of twenty cents per kilowatt hour with a ten per cent discount account. This corresponds to a net rate of six and one quarter mills per sixteen candle lamp per hour as against the present net rate of ten mills. A REDUCTION OF THIRTY SEVEN AND ONE HALF PER CENT. *We may be able to do better than this when our business increases. If we can, we shall certainly do so, for we intend to give Colorado Springs the best service and the lowest prices possible.*

THE COLORADO SPRINGS ELECTRIC COMPANY,
WILLIAM A. OTIS, President.

CHEAP POWER

THE GAZETTE'S DENVER LETTER.

[illegible] has been hoped by the [illegible] upon [illegible] this to try fish hooks on the case that Messrs Wolcott Teller Patterson Thomas and Thiele are only samples of what Colorado can do in the chair line [illegible] and the speeches of Messrs Mr Patterson Teller and Wolcott will not as it does not seem to have been published except in the Denver Newspapers I think there can be no doubt that the imagination Mr Thiele calls [illegible] the plan as well as for the party as a [illegible] and atmosphere [illegible] It is delightful to Jefferson to resume the Democratic [illegible] is an inspiration of universal truth applicable to all peoples under all conditions [illegible] at all times except of course to the colored men in our southern states. It is delightful to [illegible] to proceed to assess deductions from the Democratic business premises and to prove conclusively that the Filipinos—that is to say that part of the tribal tribe that seek part of the Aguinaldo faction are unfit for self government as our forefathers who signed the Declaration that Aguinaldo is the peer of Washington by that the design of the president in taking the islands was to create an empire that the shooting [illegible] and finally that our supreme duty is to clear out and let the dozens of native tribes fight it out among themselves meantime forgetting them all against interference from any other [illegible]

I do not wish to be understood as saying that Mr Thiele said all these things by any means but they are the common doctrine of most of the anti imperialists and most of them were uttered by Mr Bryan in his speech of [illegible] there was he was impressed much that he has since talked into a phonograph.

It is of his understand that a conservative man may find it a dangerous experiment to venture into not many days until he is to the which we now propose to offer battle in world politics we are adding now in China [illegible] to maintain government similar to [illegible] who are to be assimilated into our republic as integral and vital part of it. This is such a [illegible] that which Mr Emerson called [illegible] Aguinaldo and exhibits his followers resemble that they are the Filipinos that expert of the imagination is required with his [illegible] the rank of the [illegible] Americans.

Coming back for a moment to the academic character of the imperialistic [illegible] has ever been subjected to discussion or an interest [illegible] army or a fleet when it first passes through [illegible] is there a single nation that can be cited? I know of one and there are [illegible] of the other kind. If history teaches anything this matter of imperialism is that there is no call to imperialism [illegible] enhance the power of the [illegible] of the state or one urging the army and navy but in encouraging the mob. The way to empire lies through dis-

SPEECH BY BRYAN

Address of Lincoln People's Club

Menace to Government of Republican Success

Lincoln Neb Aug 16—Lincoln tendered a very handsome welcome to Mr Bryan upon his return to his home after an absence of ten days. He was met at the station by a large concourse of people who escorted him to his residence and who were listening to a speech then and shaking hands with [illegible] was joined to meet in the evening with many others in the reception given in the state capitol grounds which [illegible] In the address at his home he discussed national issues at some length in part as follows:

"Not long ago a Republican was chiding one of our people with the fact that the Filipinos were not living in a Democratic election for the securing of their rights and the Republican said 'Are you not ashamed that the Filipinos are expecting aid from the Democrats and this man replied to the Republican Do you know of any people in the world who are fighting or liberty who are looking to the Republican party for help at this time?

"The Filipinos in South Africa are hoping [illegible] Do you believe that they would not like to have the sympathy of the American people in their struggle for liberty. Republicanism is not today [illegible] the republic [illegible] fighting [illegible] I want those who are about to cast their first vote to ask themselves those who have voted before to take these questions that press upon them for solution and ask themselves What will the result be.

"When we say that Republicanism success menaces the foundation of our government some Republicans laugh and say that we are alarmists but it is much easier to take the second step in the wrong direction than it is to take the first step and if today the American people declare that in the case of Porto Rico a subject race and exclude them from the guarantees of the constitution it will be easier to take the next step. If we dare to exclude the people of Porto Rico from a share in the government in which they live we will be setting a precedent that has been fundamental in this country for a century and a quarter.

"No one can tell what the future has in store but we are told. We can apply the rules of every day life. If this nation can be a [illegible] it will be in the application of the principles of the Declaration of Independence. It will not be [illegible] until these principles will be applied in [illegible] country and I want to warn those who are all that when ever in this country we shall neglect the principles of self government the poor will be the first to suffer. Those who [illegible] say that the dollar of trade is superior to the rights of the Filipinos will be saying in a few years that [illegible] is more important than man and that those only who have great [illegible] rich and mob rule generally not through the purpose of the safeguards for order [illegible] for the government. This is really a point with [illegible] if one is a [illegible] an economic historic study of the rise of empires and dictatorships and the fall of republics."

CONFEDERATE PROTEST

New Orleans Aug 16—The Confederate Association of the Army of Tennessee which includes a large majority of the Confederate veterans in New Orleans has protested against the [illegible] Commanding the United Confederate Veterans attending the G A R encampment at Chicago. The following resolution introduced by General Chairman president of the association was unanimously [illegible]

In view of the recent occurrences at Atlanta and the utterances there of the commander of the G A R this association deprecates and objects to all such allied reunions of the Blue and Gray and protests against General John B Gordon accepting an invitation to be present at the reunion of the Grand Army of the Republic in his capacity of commander of the United Confederate Veterans.

SCARED BY WOLSELEY

London Aug 16—Viscount Wolseley field marshal and commander in chief of the British army dolly reads according to the Daily Mail the most striking contemplations for a war at Aldershot after with seeing certain maneuvers. He stated that [illegible] men who participated were utterly unfit to send abroad being badly led and badly taught.

Many distinguished officers listened to these remarks among them Montgomery Moore formerly in command in Canada, but now commanding at Aldershot.

K. P. GRAND LODGE

Special to the Gazette.

Ouray Aug 16 The next convention of the grand lodge of Knights of Pythias will be at Aspen and the officers [illegible] permanently located at Colorado Springs.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause acid and other poisons in the blood [illegible] and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion

when such remedies are relied on.

Mr H T Shobe 2704 Lucas Avenue St Louis, Mo says "My daughter was afflicted for years with a disfiguring eruption on her face which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed but without result until we decided to try S S S and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old and not a sign of the embarrassing disease has ever returned."

S S S is a positive, unfailing cure for *the worst forms of skin troubles*. It is the greatest of all blood purifiers and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

S S S purifies and invigorates the old and makes new rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne Salt Rheum Psoriasis or your skin is rough and pimply send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

REVIEW OF WEEK'S TRADE

Dun's and Bradstreet's Report of Commercial Conditions.

MANY FAVORABLE FEATURES

Expansion in Fall Trade Distribution at Leading Western Centers—Increase in Failures Noted.

New York Aug 17—Bradstreet's to morrow will say

Among the favorable features reported this week are advices of further expansion in fall trade distribution at leading western centers with relatively best buying proceeding from those sections of the south and west which have profited by good crops a rather better distribution by dry goods jobbers at the east a firmer tone and a perceptible growth in confidence and commencing heavy buying in some classes of steel and iron and a distribution of wheat and much more than average corn and oats crops are assured Steady increases in current clearings railroad earnings over a year ago and an exceptionally favorable net earnings report for the first half of the year are additionally encouraging features

The list of unfavorable elements in the trade situation is at best a negative one the approach of a presidential campaign, though less effective than usual in this respect the backward demand for spring woolens and the slow demand for the raw material the restriction in production of some makes of cotton goods the dullness in building materials mainly light and backward inquiry for boots and shoes at the east being among these

Speculation in nearly all lines and especially in food products is at low ebb and what price changes are noted are mainly because of this though weather and crop conditions have played some part in wheat corn and cotton respectively

The money market as a whole is still easy the only increase in demand being noted at the west where trade is expanding but where moving crops are still in the future The prices of [illegible] but changes are small and the largest number of staples are unchanged

Wheat including flour shipments for the week aggregate 3 113 [illegible] bushels against [illegible] 3 [illegible] last week 4 [illegible] 000 in the corresponding week of 1899 3 [illegible] 345 in 1898 5 [illegible] 803 in 1897 and 3 [illegible] 693 in 1896

From July 1 to date this season wheat exports are 21 [illegible] 259 bushels against 26 [illegible] 069 last season and 22 343 076 in 1898 99

DUN'S REVIEW

Buyers From All Parts of the Country More Numerous In New York Than for Many Years

New York Aug 17—R G Dun & Co's weekly review of trade tomorrow will say

After a great wave of advancing prices optimism as to business is generally dangerous But the top was reached the middle of March since which time reaction has come in every great industry so that consumers are asking whether in some directions the decline may not have been unreasonably large as was the advance and whether buying on the present basis of prices is not fairly sure There are fresh evidences of weakness in raw materials notably the break in structural iron but each one is availed of to place heavy contracts New York is welcoming buyers from all over the country in larger numbers than for many years at this season in dry goods in groceries in jewelry and in hardware and if contracts are not placed to as large a volume as expected it is because of the conservatism of those who think they may compel some further shading of prices Reports this week from other important points of distribution show the same eagerness to buy when the time seems right It is becoming more apparent that the bottom has been reached in prices of iron and steel The decline was severe and recovery must be slow but general advance and moderately increasing activity are more healthy than violent changes and a single division is the improvement more striking than in any other Except steel rails all forms of iron from the ore to the finished product are being sought more eagerly and with less effort to secure further concessions in prices The first effect of the official report of wheat conditions indicating a total crop of only 13 99 000 bushels was to strengthen prices but when the secretary of agriculture was reported as predicting dollar wheat before the end of the year the market showed an inclination to disagree and the September option for the first time in two months Failures for the week were 161 in the United States against 183 last year and 24 in Canada against 24 last year

A Sensible Woman

A party of married men were telling about their wives and it is worthy of note that every man was glad he had a wife and was anxious to tell of her good points

I never heard my wife swear but once said one of them when there seemed to be a lull in the praise-meeting

All the others looked shocked If any of them ever heard their wives swear they were not telling it and they resented the frankness of the one man who was apparently betraying family secrets But the man did not regard the bad impression he had created

And that he continued in the same tone was away back yonder thirty years or more ago when the oil excitement in Pennsylvania [illegible] I owned a farm up there that I had taken for a debt of a thousand dollars not because it was worth that much but because it was all I could get My business was very small then and a thousand dollars represented the bulk of my capital I had been married five years and my wife was the very best investment I had ever made One day I received word that oil had been struck on the farm adjoining mine and right away I proceeded to go crazy just as everybody else did when oil showed up anywhere in their neighborhood My wife showed signs too but she kept her wits about her Inside of a week I began to get offers for my farm and I got crazier every time there came an offer higher than the one before it It went up like a balloon at first until the figures got away up and then the smaller bidders dropped out At last an offer of $100 000 came from the representative of a company that I knew was worth two or three millions

[illegible] go down said my wife when I told her of this offer

[illegible] worth $100 000 to them it is worth $100 000 to me

I tell you to let it go said my wife as firm as a post in the ground

Not much said I I'll get $200 000

She pulled down her apron with a jerk a peculiarity of hers when she meant business

You are getting a hundred times more for it than you gave said she and you never expected to make $100 000 in 100 000 years and you know it

But I'll make a good deal more than that now I insisted and started climbing the fence

She pulled down her apron with a jerk that nearly threw me from the fence

John Martin said she don't be a d fool

And I wasn't convinced that my wife could be right the $100 000 offer and it was $50 000 more than the company ever got off the farm for the oil did in fact seem to run that way —William F Lampton in the September New Lippincott

A Woodland Lullaby

Sleep weary huntsman and rest
Soft on your fragrant fir bed
The night winds sing low
Where the tall redcedharps grow
And the night owl keeps watch overhead
[illegible] while the whispering breeze
Moans through the pines on the hill
The stars dance and gleam
On the murmuring stream
And the woodland folk [illegible]

The air from the violet beds
Will soothe thee with gentle caress
And the perfume that blows
From the dainty wild rose
Will bring thee a sweet drowsiness
The bark of the prowling gray wolf
The traveling gull goose's cry
The plaint of the loon
From his marshy lagoon—
All are lost in the streams lullaby

The song of the wood thrush is still
The doves beak is tucked neath its wing
The cubs of the bear
Are asleep in their lair
Mong the rocks where the columbines cling
The grasshopper's safe in the weeds
The wild fowl have sought the still lake
The croak of the frog
In his quivering bog
Keeps the muskrat and mallard awake

So sleep chase-worn hunter and rest
Ye peace on the earth I im
The star lighted sky
Is thy canopy high
And thy couch spreads where wild flowers are strewn
Deep be thy slumber tonight
Sweet be thy dreaming and bliss
Till the sun's first bright ray
That proclaims a new day
Shall awaken thee with its warm kiss

Lullaby Lullaby
Night winds sing low
Where the tall reed harps grow.
Lullaby Lullaby
—J W Wright in August Outdoor Life

BUSINESS OR IDLENESS?

(Contributed)

The thoughtful voter will distinguish between the transient and the permanent differences between the Republican and Democratic parties Each campaign brings to the front some temporary question of expediency which are intended to blind the eyes of the thoughtless and attract the floating vote

Tippecanoe and Tyler too won more votes than logical arguments Fifty-four eight would be the war cry of the country and not a few would have preferred the fight to the fifty-four forty And if 16 to 1 drives sound money Democrats into the Republican party and Silver Republicans into the Democratic ranks

[illegible] ries deeper than the money question more important than the subject of imperialism more vital to the future welfare of the nation than militarism is [illegible] Democrat [illegible] two great historical parties on the tariff question It is not a question of protection and free trade No party advocates and no government practices absolute free trade The Democratic party has however for years advocated in its platforms the well defined policy of a tariff for revenue only refusing to recognize as Democratic the wisdom justice or propriety of affording either protection to American labor or American capital invested in American industries

The avowed Republican policy often reiterated in national platforms and enacted into law as is evidenced by the McKinley and the Dingley tariff bills openly affirms that the Republicans favor a protective tariff that will encourage the investment of American capital in manufacturing enterprises and insure to American labor both native and naturalized the advantage of a fair day's wages for a fair day's work

Both of these plans have been tried with [illegible] who will cast their votes next November

The Wilson Gorman tariff bill and the effects thereof were Democratic The Dingley bill and its results are Republican The effects produced by those two measures should be carefully weighed by every voter who desires his ballot to influence national prosperity and personal advantage

Under the operation of the Wilson [illegible] this government was not sufficient to pay current expenses The tariff for revenue only did not produce the revenue Government bonds were sold in time of peace to pay the daily obligations of the Democratic administration From being a debt paying nation we became debt creating nation Industries languished Mills shut down Factories closed Building ceased The army of the unemployed increased Panic came Banks failed Fortunes crumbled Labor begged in vain for work But just as soon as the people could express their verdict at the polls Cleveland was repudiated the Wilson Gorman tariff bill was declared wanting and a change was demanded

Will the election of a Republican president and a Republican congress a protective tariff measure was enacted The Dingley bill became a law What have been the results? The national [illegible] fought to a successful issue two wars and has been paying debts at the same time Bond issues have given place to bond redemption and refunding the existing [illegible] of the nation at a lower rate of interest than was ever before secured by any nation in history Mills have been started Factories have been running day and night Wages have been increased Labor has been profitably employed The exports during the four years of the Dingley Republican tariff have exceeded the combined amount of all the exports of the nation during all the previous years of our history from the beginning of Washington's first administration to the close of Cleveland's last administration

There is the record None deny it The books have been audited and the balance is known to all What do the American voters want? Is it to return to the Wilson Gorman tariff bill and panic times or a continuation of the Dingley bill and McKinley times? Your votes next November will decide the question

The White-Footed Mouse

The white footed mouse has taken possession of my cabin Until a year ago the mice were kept in check by [illegible] have failed to appear and the mice are increasing rapidly I find their nests in every nook and corner I go barefooted the most of the time for it happens that when I do need a hat I find it occupied by an enterprising mouse and her family Now a few mice per company in the winter evenings would not be objected to but [illegible] when they become so numerous that I am forced to eat and sleep with them They are too [illegible] and I intend to be kept in check by traps I have tried all kinds of traps only to find them [illegible] Last winter I bought with [illegible] the kind with a trench at that slips and slides the bait into the [illegible] The trap was a failure The mice were highly delighted with the entertainment from the first and the trencher ran down [illegible] and out of the trap

[illegible] inhabitants of the woods are more intelligent than the cunning city rat?

Some writers tell us that the lower animals cannot reason In such case it ought to be an easy matter for man to outwit a lot of foolish little mice I tried the experiment by fixing a wire [illegible] to give me full control When the mice were engaged in the feast in the trap I pull them with a quick twist The next morning my prisoners numbered 28 I was about to drown the lot when [illegible] of the trap and [illegible] quite [illegible] their generous [illegible] would [illegible] foolish head and I thought I would be merciful [illegible] the woods I sent them out [illegible] in some big boxes I left a supply of food and proceeded to feed them from time to time Two [illegible] later they were all back in the cabin [illegible] satisfaction I found that they had followed my footsteps I could see their tracks in the snow where they had trooped along in short journeys At the end of each journey the tracks would disappear under a boulder or a tree only to appear again but always branching for the cabin

I built and baited the trap while the mice scampered [illegible] celebrating their return I told them plainly that this was their last night on earth that I had outwitted them once and would now outwit them again But all my boasting came to naught Not a mouse would enter that trap while the wise was on the trencher The third night I removed the wire and the mice entered the trap without fear

Ingenious man has pitted his wit against the wit of these little rodents and the [illegible] the [illegible] sportsman knows how it is He finds the wild things just as intelligent and crafty as he [illegible] and he [illegible] superiority —Forest and Stream.

Our Minister to China

In appearance Mr Conger is an imposing man He stands over six feet has a broad and stalwart frame and weighs more than 200 pounds His bearing is dignified his frank and open face [illegible] genial [illegible] friendship and confidence yet he is positive and determined fearless and unyielding when occasion requires His family who are now with him in China, consists of his wife his daughter, Miss Conger and his ward and niece Miss Pierce Mrs Conger, born a Miss Pike, and the sweetheart of her husband's college days is a sweet faced gentle little woman who in their long union has been a constant helpmeet and inspiration, sympathizing in all of his undertakings and aiding him [illegible] and sharing in all of his ambitions The wife of the American minister to China is slender and graceful below rather than above medium height, with kindly blue eyes, brown hair that waves away from an intellectual forehead and a low sweet voice

Because of her position and winning [illegible] Conger naturally has been granted a foremost position among the women of the diplomatic corps and the American legation has been the gathering place for the strangers in the Celestial capital While by no means [illegible] society in its narrower sense, the wife of the American minister has left nothing undone that could add to her husband's prestige or increase her country's fame Thursday has been observed as a reception day at the American legation and [illegible] is invariably served there on this afternoon which differs in no wise from similar functions in this country save that the tea is of better quality than ever finds its way to these shores and is passed around by native servants who are devoted to their gentle mistress and her family In her social duties Mrs Conger finds able assistants in her daughter and niece, who are bright and attractive young women and Pamily equipped for the duties that fall to their share

The home of the American minister, one of the least pretentious in Legation City and rented not owned as are most of the legations by the powers that occupy them is an old-fashioned structure but spacious and not uncomfortable It is situated in a compound in the midst of the picturesque native shrubbery about one and a half acres in extent which rests beside the minister's residence houses for his staff, quarters for his servants stables out [illegible] which was erected a few years back and is a handsome edifice built on modern [illegible]

Excursion to Aspen

On account of the races at Aspen the Colorado Midland railway will sell tickets to Aspen and return at $12 for the round trip

Tickets will be on sale Aug. 22nd and 23rd

This is the only low rate excursion to the greatest silver mining camp in the country that will be given this year.
